

Dear Parents,

This year, our schools continue its use of the i-Ready® Diagnostic with various student groups in grades K-12. Now that the assessments have been completed, valuable information used to make decisions about instruction is available to your child's teacher. Parent reports are attached. This report will give you information about each diagnostic test your child has taken so far in math and reading; sharing strengths, weaknesses, and reading levels. In addition to the assessment, children can continue their learning at home using the available online lessons within iReady.

Should you have further questions, please do not hesitate to contact your child's teacher, building principal, or District Curriculum Director. You can also access more information on this assessment by visiting the Curriculum Associates website: [www.CurriculumAssociates.com](http://www.CurriculumAssociates.com)

Sincerely,  
Kathleen Moore, Morrisonville Elementary Principal  
Connie Garman, Saranac Elementary Principal  
Kate Francisco, Middle School Principal

A graphic with an orange border and white stars. At the top left is the i-Ready logo. To its right is the text "i-Ready Login Information" in a large, bold, black font. Below this is a light blue rounded rectangle containing the text "Students can access the iReady online lessons at home!". Underneath are five numbered steps: 1. Go to login.i-ready.com; 2. Enter username (not case sensitive); 3. Enter password (case sensitive); 4. Select state from the dropdown menu; 5. Click Go!. To the right of these steps are three input fields: the first contains "saranac" and has a note above it "Students' first and last initial followed by their lunch number"; the second contains "New York"; the third is empty. At the bottom right, a laptop screen displays the i-Ready login page with a group of diverse children.
